

# XRD Analysis Results

**Half-finished glass vessel**

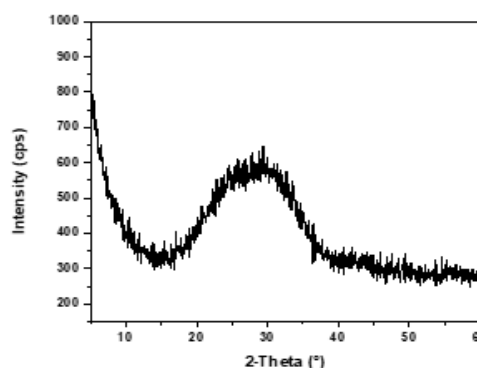

The SciArt Project  
2024

## Results Report

### Point of Interest 1: Main body of the vessel

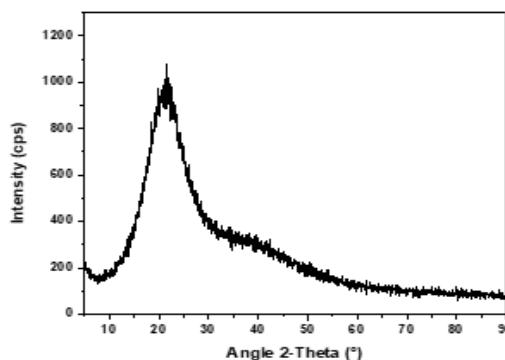

This is the XRD pattern of the main body of the vessel.

The analysis of the pattern confirms that we have amorphous  $\text{SiO}_2$ .

### Point of Interest 2: Crack

This is the XRD pattern of the substance that was collected from the crack spotted on the vessel. The method does not give us any additional information. The pattern shows that it is probably a material of organic origin.

### Point of Interest 3: Residues at the bottom of the vessel

This is the XRD pattern of the residues that were collected from the bottom of the vessel. The method does not give us any additional information. The pattern shows that it is probably a material of organic origin.
