

Elemental Analysis (EDS) Results

Ship Stern Knee

The SciArt Project
2024

Results Report

Point of Interest 1: Wood

This is the EDS spectrum of the wood collected from Point of Interest 1. The elemental analysis shows that it consists of carbon and oxygen. These elements are characteristic of organic materials, such as wood.

Point of Interest 2: Threads from the textile

This is the EDS spectrum of the threads collected from Point of Interest 2. The elemental analysis shows that they consist of carbon, oxygen, and nitrogen. These elements are characteristic of organic materials, such as fibers of animal origin.

Carbon (C)	60%
Oxygen (O)	30%
Nitrogen (N)	10%
